Antenna Mounting Clamp Stock No. 4879

DESCRIPTION

The Blonder Tongue Model 4879 is a heavy duty, stainless steel antenna mounting clamp. It is designed for mounting Blonder Tongue professional-type antennas. The Model 4879 has excellent weathering properties and exceptional strength. The mounting clamp is shipped completely pre-assembled; four 3/8" U-Bolts will accept mast tubing up to 2-1/2 inch O.D.

FEATURES

- *Dual U-Bolt clamps and stainless steel plate secure antenna firmly to a tower leg or mast.*
- *Completely pre-assembled to facilitate installation.*
- *U-Bolts can accommodate mast up to 2-1/2" in diameter.*
- *Compact design (6" x 6" x 1-3/8") for ease of mounting.*
- *Combines vertical and horizontal mast members to form a stacking frame for vertical, horizontal or quad array configurations.*
