

SLSP-F **KA/KU Slimline Satellite Dish** **Antenna for SL3 / SL5 LNBS**

Key Features

- This dish is the go-to standard for receiving DIRECTV HD satellite programming
- Ideal for those who are only replacing satellite dish hardware that was damaged but still have LNB
- Recommend using the SL3, SL3-SWM, SL5, SL5-SWM, 5D2RBLNB, SL5KRB or 3D2RBLNB

What's Included:

- Azimuth/Elevation bracket
- BAU, dish reflector
- LNB arm
- Heavy Duty J-mount
- Long and short support bracket

This DIRECTV Slimline series dish receives high definition local channel programming. It's smaller, lighter, and more visually appealing than older dish models. This makes it ideal for those with strict HOAs. This dish antenna can hold a SL5 LNB, SL5-SWM LNB or SL3 LNB to receive 99, 101, 103, 110 and 119-degree satellites for local HD.
