

## Hardline Strip & Core Tools

### Hardline Strip & Core Tools

The Jonard all-in-one coring tools provide a complete coring solution for multiple types and sizes of hardline cables. These tools include a jacket stripper at the front of the tool, a coring tool with an adjustable center conductor beveler and a stop to insure consistent coring lengths with a comfortable ratcheting handle. The jacket stripper is removable so you can use it as a standalone jacket stripper or just use the coring portion. Remove the ratcheting handle and you can connect the coring tool to a drill for faster coring. The tool is rugged with an all-aluminum housing and rugged T shaped ratcheting handle. Blades are easily replaced as is the coring bit and beveler. Tools are designed to work on Commscope P3, QR and Times Fiber T10 cables.
