November 12, 2020

Horsham PA USA; Toner announces the introduction of their TPA-20U commercial UHF Preamp.

Due to market demand, Toner has engineered and is manufacturing a new 20 dB Gain Pre Amplifier for the UHF (470-700 MHz) spectrum with an extremely low noise figure of only 2.5 dB and a minimum input level of -20 dBmV.

The TPA-20U is manufactured in an aluminum die cast housing which has an integral antenna mast mount flange for easy installation.

The preamp will be supplied with everything needed for installation. This includes the power supply, mast clamp, weather sealing tape for the F connectors and an LTE filter that can be installed to reduce or eliminate cellular phone signals above 608 MHz (UHF Channel 36)

Toner is introducing this preamp at \$345.00 with customers already placing advance orders, Toner expects the first production run to sell out quickly. Delivery is expected around December 15<sup>th</sup> so place your order today!

To order your TPA-20U in advance or for more information please contact Toner at 800 523 5947 or by e-mail at [info@tonercable.com](mailto:info@tonercable.com)

In addition, a VHF High Band model is planned for production in March of 2021.
