

## CLE-22 Fiber Optic Connector Cleaner

CLE-22 connector cleaner is a fast and cost saving cleaning solution. It can fast and effectively clean the connector end-face and ensure the project quality.

### Features

- Dual Cleaning Slot
- Safety and Reliable  
Compared with traditional alcohol or cotton stick cleaning, CLE cleaner avoids the second-hand pollution and ensures the cleaning quality
- Easy To Use  
Without any additional accessories, just gently wipe the connector off the cleaning slot, then it is clean
- Cost Saving  
Compared with similar imported cleaners, the price is very competitive
- More Than 500 Times Cleaning
- Replacement Tape
- Wide Application  
Widely used in field or indoor researching institution instrument cleaning
