DV5™ Wireless Digital Signage Player

Video Messenger's DV5 Series of All-In-One-Digital Signboards integrate the media player, high brightness display, expandable local storage and wireless network. Since the power supply cable is the only physical connection to the player, it is easy to achieve a clean and professional presentation anywhere. The Signboards are available in Standard and High Definition and only require a knowledge of PowerPoint® to operate. The included PC based user interface is simple and requires no additional monthly fees. Optional networking services are available for customers that wish to operate a large number of Signboards for one central location. Use your custom PowerPoints, Jpegs, and video files or choose from one of our 400 licensed backgrounds. With Video Messenger's All-In-One wireless DV5 Series, having a professional looking display has never been so easy and also perfect for many applications where a wired installation can be costly and inconvenient.

DV5-24 24" HD Digital Signboard

DV5-18 18.5" HD Digital Signboard

DV5-15 15.6" SD Digital Signboard

DV5-10 10" SD Digital Signboard

- Like our other Digital Sign Players, the DV5 Series Digital Signboards Play PowerPoint® Stills, Jpegs, and Mpg Video
- The System includes 400 + PowerPoint® Slides ready for your customization with text
- You can schedule your presentations as an endless loop or as a detailed weekly schedule by day of week and time of day.
- It also comes with a user friendly (two step) PC interface
- And standard Wi-Fi capability makes for easy installation
- The unit is fully network capable for both LAN & WAN
- You can control multiple sign boards remotely through VMC's Server
- We offer a free weekly webinar training so you will definitely take full advantage of the systems features.

DV5™ Wireless Digital Signage Player
