

VT-1000

Voltage Detector

The VT-1000 is useful in identifying the presence of AC voltage at outlets, switches, circuit breakers, fuses, wires and cables. Compact and lightweight with built in pocket clip. CAT IV rating provides expanded operation and protection.

Specifications

Voltage detection between 90 to 1000 VAC

Measurement category IV, 1000V

Battery 2 x 1.5V AAA alkaline

WARNING:Read the manual before operating or servicing this tool. Failure to understand how to safely operate this voltage detector may result in serious injury or death.
