

MSD-1H

MediaStream TV, H.264 Decoder

MSD-1H

Features

- FullHD, 1080P60 video on any HD capable TV or monitor
- AAC-LC and MP3 audio decoding
- Support for UDP, HLS, TS-TCP, TS-HTTP, RTSP
- Compatible with MediaStream TV servers
- MediaStream TV servers build play list for decoders
- HDMI 1.4b output on decoder
- ROM 8G
- Local file playback 2 USB or Micro SD slot up to 32G

The MediaStream TV, MSD-1H is a compact, yet powerful decoder designed to be used with MediaStream TV for decoding live video streams, VOD and digital signage in Full HD, 1080P60 video. The MSD-1H decodes IP video streams to HDMI and then displays HD video on any HDTV or monitor. The unit provides the ability for the viewer to select from an established play list of live channels or VOD files established in the MediaStream TV server. The MediaStream TV server, model MS-500G or MS-2000G along with the MSD-1H in digital signage mode can display beautiful, custom designed, eye popping graphics with live streams in FullHD, 1080P viewing.
