

# PD6IP

## 6-Channel MPEG2 IP Encoder

### Description

Pico Digital's PD6IP is a high-performance MPEG-2 video encoder that encodes six composite video and stereo inputs into either MPTS or SPTS. Occupying a single rack space, the compact unit additionally offers closed captioning (EIA608).

### Features

- Encodes up to six composite video and stereo audio inputs into one MPTS or six SPTS UDP/IP
- Codec: MPEG-2 MP@ML video compression
- 1 RU unit
- Equipped with closed captioning (EIA608)
- Supports Dolby® AC3 and MPEG-1 Layer II audio
- Remote control and monitoring via an easy-to-use web browser

### Specification

Input Interface		IP Output	
Video In	1 Vp-p, 75 Ω	MPTS	UDP/IP
Connector	6 x RCA	SPTS	6 x UDP/IP
Audio Input	2 Vrms max.		Multicast/Unicast
Connector	6 x RCA left and right	User Interface	
		LCD	2 lines x 16 characters
		Navigation	5 push buttons
		General	
		Operating Temperature Range	0 °C to 50 °C
		AC Power , Switchable	110 VAC to 240 VAC, 50 HZ to 60 HZ
		Mechanical	
		Dimensions	19"(L) x 17"(D) x 1.75" (H)
