

TSI-2400 Coaxial Voltage Isolator

TSS-2400 Coaxial Surge Protector

TSI-2400 Coaxial Voltage Isolator

- Isolates modem/receiver/TV/VCR equipment from voltage surges
- Easy in-line insertion on cable drop
- Eliminates ground loops/hum bars
- Fast response protects in fractions of a second
- Reduces cable line electrical noise, increasing modem performance
- Low insertion loss.

Specifications

Bandwidth	5~1000MHz
Isolation Protection	6,000 volts
Response Time	1 ps
Insertion Loss	<1.5dB
Impedance	75Ω

Ordering Information

TSI-2400 Coaxial Voltage Isolator

TSS-2400 Coaxial Surge Protector

- Protects modem/receiver/TV/VCR equipment from power current surges
- Easy in-line insertion on cable drop
- Low clamping voltage ensures protection from wide frequency range of surges
- Self-resetting circuit ensures continued protection
- Low insertion loss

Specifications

Bandwidth	5~2400MHz
Resistive Protection	10000M
Surge Capacity	5000 amp
Response Time	100 ns
Insertion Loss	<2.0dB
Impedance	75Ω
