

HD7694P

HDTV Antenna VHF/UHF 45 Miles

The Winegard 7694P antenna has been specifically tuned for channels 7-69. This antenna has a range for 30 miles for VHF and 25 miles for UHF signals. It is primarily an outdoor antenna and is not intended to be installed indoors.

- *Note: This antenna can receive stations 2-6 in most areas due to the fact they are generally broadcast on higher unused UHF or VHF frequency numbers in the area. Our techs can verify this with your zip code information
- **Includes hardware for mounting to a mast; antenna has a 75 ohm coax connection**
- Great small range directional antenna that picks up about 30 degrees wide
- Get all of the top rated programs for FREE in stunning high definition
- Estimated Range: 45 miles on the VHF / UHF band
- Active Elements: 28
- Made in America
- UHF Elements: 17
- VHF Elements: 11
