# BELDEN

The Belden Pro Series 716SNS1P series of F Connectors for RG-11 cable represent the latest in precision compression connector design. All are Universal type so they fit most models of RG-11 Coax cable. Each connector has a 7/16" Hex head and a polymer compression sleeve for secure and easy compression. These connectors are packaged in bags of 25 pieces.

Models available	Application	Band Color
