

TMMRC-4P 1RU Rackmount System for Minimod Type Devices

This is an easy to use compact 1RU rackmount chassis for rack mounting up to 4 MiniMod type devices in a standard 19" wide equipment rack.

The chassis comes with a 90-260VAC Power Supply mounted to the rack mount chassis as well as the wire harness to connect to each module.

Modules are easily mounted using the included screws to hold them in place.

The power supply has a standard IEC power connector and is supplied with a US 117VAC power cord.

Specifications:

19" x 1.75" Rackmount 4 Module Chassis

Power Supply

AC Input: 90-260 VAC (50/60Hz)

DC Output: 12V 2.4A / 5V 3.2A Protection:

Short Circuit & Overload Ripple: 75mVp-p (5V) 120mVp-p (12V)

Physical

Size: 19" x 7" X 1.75"

Weight: 5 Lbs

- AC Input: 90-260VAC (50-60 Hz)
- DC Output: 12V (2.4A)/5V (3.2A)
- Protection: Short Circuit & Overload
- Ripple: 75mVp-p (5V) / 120mVp-p (12V)
