

LGX-WMB Wall Mount Bracket for LGX Type Modules

The Toner LGX-WMB is a simple bracket used to mount any LGX type coupler or adapter plate to any flat surface such as a wall or mounting board without the need to use an expensive LGX chassis.

This is ideal in distributed tree and bush fiber optic architecture within a building.

Features

- Easy to use
- Compact size
- Uses LGX push pin
- Black powder coated finish
- Strong .058" CRS
- 4 holes for #8 screws
- Size 6.5"L x 1.6"D x 1"W
