

H26K-COM Commercial Satellite Receiver

DIRECTV for Business takes a huge step forward with the H26K-COM Commercial Receiver. This is DIRECTV's smallest and most energy-efficient commercial receiver. Watch 4K content and take advantage of the advanced power of the latest RF remote, with the fastest DIRECTV receiver ever made.

Key Features and Benefits

- Watch in SD, HD, and 4K
- Durable fan-free construction, runs cool and silent
- Front-panel buttons for easy and quick operation
- Latest DIRECTV User Interface
- Advanced RF Remote
- Ethernet port
- Dedicated IR Blaster in port
- Compatible with the SWM-30HP multiswitch for runs over 250 feet
- Easy connection to modulators with dedicated A/V port
- Dual USB ports to power External DECA and for DIRECTV Residential Experience
- Manually selectable Power Saver mode
- Easy attachment via keyhole slots or zip ties

With the H26K-COM, you'll have the best DIRECTV viewing experience for your business. This SWM-equipped receiver uses the latest technology to allow you to get 30 tuners from a SWM-30 multiswitch when only H26K receivers are used. Use the free DIRECTV for Business app available on the App Store and Google Play store for advanced networking features.
