

Toner Coax Cable / Connector Chart

This chart provides a quick reference for matching Toner coaxial cable part numbers with their compatible connectors. Each cable is listed alongside its description — including shield type, jacket color, and rating — along with the corresponding Toner, Belden SNS, and PPC connector part numbers. Use this guide to ensure you select the correct connector for your specific RG6 or RG11 cable installation.

Cable	Description	Toner Connector	Belden SNS Connector	PPC Connector
